

Environmental Policy

PROVERTHA Electronic Components Zrt., hereinafter referred to as PROVERTHA, is primarily engaged in the manufacturing of electronic components.

The company is committed to aligning all its activities with the protection of the environment and the health of its employees. PROVERTHA declares that it complies with all applicable legal and regulatory requirements, and cooperates constructively with relevant authorities, local governments, customers, and suppliers.

The corporate group operates and continuously improves an environment-focused management system according to ISO 14001:2015 standards. This system aims to enhance environmental performance, improve workplace conditions, and make the company's infrastructure more efficient. Environmental and resource protection are integral parts of the company's management, treated at the same level as testing and quality assurance functions.

In line with the principles of sustainability, the company continuously develops its manufacturing processes to reduce its ecological footprint, increase energy efficiency and manage its resources responsibly.

PROVERTHA incorporates innovation and resource efficiency into its operations at a strategic level, thereby supporting its long-term sustainability objectives. The company strives to apply environmentally friendly technologies and materials whenever possible.

PROVERTHA is dedicated to preventing the environmental impacts arising from its activities. It aims to minimize negative effects as much as possible and regularly reviews existing processes to ensure sustainable development.

Environmental protection is a shared responsibility of all employees. PROVERTHA supports and encourages its staff through ongoing training and guidance to perform their tasks according to the principles of environmental policy.

All employees are expected to understand, support, and actively promote the achievement of environmental goals and to contribute to the improvement of the company's environmental performance in their daily work. As part of this commitment, all employees are required to comply fully with the company's environmental regulations, instructions and standards.
